

Dynamic and results-driven Marketing Professional with 7+ years of experience specializing in end-to-end marketing orchestration, brand strategy, and high-impact digital transformation. Proven track record in scaling B2B SaaS and fintech brands by aligning cross-functional teams - spanning content, SEO, design, web development, and PR to reduce operational bottlenecks and accelerate growth. Adept at launching new products single-handedly from Go-To-Market (GTM) strategy to deployment, while managing high-value enterprise pipelines. A forward-thinking marketer combining traditional campaign expertise with cutting-edge Agentic AI and workflow automation to drive unprecedented operational efficiency.

Professional Experience (5 Years 10 Months)

APPSeCONNECT (June 2025 – Present)

- Directed end-to-end marketing operations across content, SEO, design, web development, PR, and vendor management, eliminating workflow bottlenecks and improving campaign execution efficiency.
- Directed a multidisciplinary marketing team of copywriters, content specialists, SEO professionals, static and motion graphic designers, and UI/UX designers, overseeing content strategy, brand positioning, and digital experience initiatives while managing external agencies and consultants.
- Developed marketing performance frameworks, reporting systems, and process workflows, enabling data-driven optimization and improved cross-functional collaboration.
- Owned the complete Go-To-Market (GTM) strategy for appse ai, including brand positioning, messaging architecture, visual identity, website launch, and market introduction.
- Generated and maintained a pipeline of **80+ qualified Marketing Qualified Leads** per month from **120+ monthly inbound leads** through lead qualification and targeted demand-generation initiatives.
- Delivered a **2% MQL-to-customer conversion** rate within enterprise sales pipelines, contributing to opportunities with an average deal value of \$50,000.
- Built and deployed Agentic AI solutions and automated marketing workflows across content production, social media, design, and website publishing**, increasing operational efficiency by 10x.
- Developed an AI-powered website publishing workflow that **accelerated page deployment by 90%**, reducing go-live time **from 3 days to 3 hours**.

Sub-K IMPACT Solutions Ltd. (June 2019 – March 2025)

- Strategised, Designed and executed multi-channel offline and online campaigns that significantly enhanced brand awareness, digital presence, and overall business growth.
- Spearheaded marketing campaigns for the company's new EMI payment app, driving a **60% increase** in digital payment adoption within two years.
- Led WhatsApp-based lead generation for MFI customers to achieve high conversion rates, optimizing lead allocation to maximize sales team performance.
- Led Digital & Social Media Marketing. Managed corporate social media, running targeted campaigns and analyzing performance metrics to consistently optimize ROI.
- Strategized, Planned and executed rural promotional campaigns, awareness camps, and financial literacy programs to accelerate digital banking adoption.
- Authored compelling marketing copy across diverse touchpoints, including websites, ad campaigns, WhatsApp sequences, newsletters, and promotional video scripts.
- Process & Vendor Management: Developed internal process guides to improve efficiency cross team efficiency.
- End-to-end managing vendor relationships and cross-functional alignment.
